

Make Any TV a PC

The pocket-sized Intel® Compute Stick transforms any HDMI* display into a computer.

Whether at work or at home, anywhere you can find an HDMI* TV, you can now also enable a desktop PC. The Intel® Compute Stick is an ultra-flexible, ultra small form factor device that plugs into the HDMI port of a monitor or display. Once connected, you can download content from the cloud or run files locally.

**Powerful, efficient
Intel® Atom™ processor**

1.33 GHz, 2 MB cache, and a low-energy footprint

**Intel® HD graphics,
multi-channel digital audio**

Rich multimedia, ideal for home theater setups

Measuring in at 4.06" x 1.46" x 0.47", the Intel® Compute Stick is small enough to take anywhere, and is the perfect solution for basic compute and online activities. Users can easily travel with it, carry it between home and office workspaces, or plug it into their home theater display and enjoy a device that enables so much more than just multimedia streaming.

With the Intel® Compute Stick, there's something for everybody. Retailers can use it for out-of-the-box digital signage, enterprises and small businesses can use it as the perfect thin client, education organizations can deploy it in computer labs for personalized learning, and not to mention there's a plethora of use cases for consumers who want a value-driven compute stick.

Users can also choose between a Windows* 8.1 or Linux* operating system that comes pre-installed, making it even easier to tailor the right solution for businesses or consumers.

Start with 32 GB storage with Windows* or 8 GB with Linux*

Store files locally and add up to 128 GB more via a microSD card.

Wireless connectivity with Wi-Fi and Bluetooth* enabled

Wirelessly connect to the Internet and access all your peripherals.

Connect. Compute. With the Intel® Compute Stick, it's that simple.
Choose your pocket-sized compute stick solution at intel.com/computestick

Earn 550 points with your first purchase of qualifying Intel® Compute Stick SKUs now through June 30, 2015!¹ Learn more at inte.ly/stickpromo

Participants must be active Gold or Platinum Intel® Technology Provider partners to earn points.

Software and workloads used in performance tests may have been optimized for performance only on Intel microprocessors. Performance tests, such as SYSmark and MobileMark, are measured using specific computer systems, components, software, operations and functions. Any change to any of those factors may cause the results to vary. You should consult other information and performance tests to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products. For more complete information visit <http://www.intel.com/performance>.

Intel® technologies may require enabled hardware, specific software, or services activation. Performance varies depending on system configuration. No computer system can be absolutely secure. Check with your system manufacturer or retailer or learn more at www.intel.com.

1. Valid from April 15, 2015 to June 30, 2015. Participants must be an active Gold or Platinum Intel® Technology Provider partner to earn points. Limit 2,200 points per business. Points will be awarded 4-6 weeks after the quarter ends. Points terms and conditions apply. Visit official promo page at <http://inte.ly/stickpromo> for eligible SKUS and promo details.
