

Your digital life in the palm of your hand.

Want an #awesome system about the size of your cable modem? The Intel® NUC built with 5th generation Intel® Core™ processors takes the powerful capabilities of a complete desktop unit and packages it into 4 small inches.

The Intel NUC is a Mini PC that delivers all the acronyms you want for home theater, home gaming, and home hubs: WiFi. HDMI. 4K. GB. TB. USB. Built with Intel Core processors, you have all the performance you need to be GTG along with a high-speed peripheral charging port and replaceable lid. And with two different-sized chassis to accommodate both HDDs and SSDs you can store and stream your games, your movie collection, and all the pictures from the last Comic-Con.

How do you use your Intel® NUC?

Home theater? PC gaming? Home hub? This Mini PC is like a real-life Transformer.

PC GAMING

HOME THEATER

HOME HUB

HOME THEATER How do you watch sci-fi flicks?

SUPPORTS 4K DISPLAY
for immersive visuals.
